

## Please vote for **PHIL SMITH** for **St Peter Port Douzaine**

In Town or at Beau Sejour 10am – 8pm

20<sup>th</sup> November 2024

I am a candidate standing for re-election who believes in caring for the environment and the community. I have lived in St Peter Port Parish for over 18 years. You will often find my Fox Red Labrador walking me around town.

I have been involved in many issues including Hedge Inspections, Street Lighting, Liberation Day Celebrations, and Family Fun Days together with the more formal issues such as attending wreath laying.

I am a retired Chartered Engineer with a Master of Science in Digital Systems and Instrumentation, having worked for British Airways for 31 years, including as the Principal Fleet Engineer for Concorde and, more recently as head of the Electro-Biomedical Engineering Department at the PEH. I am also a retired university senior lecturer. I previously served as a School Governor and also on a UK Church Fabric committee. I have recently been elected on to the Town Church Committee.

I am:

- Dedicated
- Approachable
- Supportive
- Dog friendly
- A good listener
- A good problem solver

Although I am aware of some of the issues affecting St Peter Port which I wish to address, I will always be willing to discuss any other issues important to you that you raise with me and do my best to resolve them.

Please vote

**PHIL SMITH** for **St Peter Port Douzaine**
